## About This Program

This 1 week short term program is designed for students who wish to learn foreign languages outside their home country and gain experience in cultural enrichment activities. Students would get the opportunity to get engaged in interdisciplinary educational programs by attending classes that have a wide range of topics: Introduction to Malaysia and its people, English and Malay Language with practical classes, cultural immersion sessions and the Malaysian marine science. Students will gain exposure in intellectual exchange, have a better understanding of the cultural and social systems of Malaysia, foster networking among international friends and be able to earn course credit.

At the end of the program, students will be able to learn more about Malaysia, its people and culture, gain dynamic communicative skills and confidence in English Language, experience the campus life in the city of Kuala Lumpur. They will also experience close encounter with exotic marine life while learning to understand its importance and gain awareness on the importance of conservation of marine diversity.

# Come and join us!

IOES Blue Venture Program provides a unique opportunity to international students with enriched experience in marine education and cultural exploration. This is an opportunity to gain lifetime experience, enhance knowledge about marine science, widen your network among friends from different countries and explore the multiculturalism of Malaysia.
